

November 23, 2020

Warren Collegiate Institute

Dear Parent/Guardian of Students at Warren Collegiate Institute,

Manitoba public health officials advised Warren Collegiate Institute on November 23, 2020 of two confirmed cases of COVID-19 in individuals in the school. One individual belongs to the Grade 9/10 cohort and was in the school on November 19, when they may have been infectious. The other individual belongs to the Grade 11/12 cohort and was in the school on November 12, 13, and 16-19 when they may have been infectious.

These infections were not believed to be acquired at the school.

Please note: the school is not permitted to release the name or any identifying information about the confirmed case of COVID-19 to any member of the school, community or media.

Warren Collegiate Institute is working closely with public health officials and following their recommendations. **Close contacts have been contacted by Public Health and have been advised to self-isolate (quarantine) effective today.**

If your child develops a new onset or worsening of any one symptom listed in Column A or any two or more symptoms listed in Column B (see table below), even if they are mild, immediately isolate them from others. It is recommended your child get tested for COVID-19 as soon as symptoms appear. Call Health Links—Info Santé at 204-788-8200 or toll-free at 1-888-315-9257 for information on testing and isolation.

---

A	B
Fever/Chills	Runny nose
Cough	Muscle aches
Sore throat/hoarse voice	Fatigue
Shortness of breath/difficulty breathing	Pink eye (conjunctivitis)
Loss of taste or smell	Headache
Vomiting or diarrhea for more than 24 hours	Skin rash of unknown cause
	Nausea or loss of appetite
	Poor feeding (if an infant)

Please note: individuals with symptoms outlined in columns A and B, who choose not to be tested, must isolate for a minimum of 10 days following the start of symptoms. Isolation can be stopped at day 10 if the individual has been symptom-free for 24 hours.
