Assistant Superintendent

*“Preparing Today’s Learner for Tomorrow”*

May 6, 2021

Dear Warren Elementary School Families,

This evening (May 6) a member of the community shared with us their knowledge of a confirmed case of COVID-19 at Warren Elementary School. The individual who has tested positive for COVID-19 was last in the school on Thursday, April 29, when the individual may have been infectious.

Please note that the school is not permitted to release the name or any identifying information about the confirmed case of COVID-19 to any member of the school, community or media.

It is important for families to know that public health is responsible for:

- Investigating the details of a confirmed case of COVID-19;
- Identifying those deemed to be close contacts of a confirmed case of COVID-19;
- Contacting those identified as close contacts of a confirmed case of COVID-19 and providing instructions for self-isolation.

As of 8:00 pm this evening, the Superintendent’s Department had not yet been contacted by public health regarding their investigation. We are reaching out directly to the WES community this evening to reassure families that we will work closely with public health officials and will follow their recommendations.

Public health will complete their investigation of this case and will provide additional information to all WES families as soon as it becomes available. Out of an abundance of caution, **Warren Elementary School will be closed to all students and staff on Friday, May 7.**

Sincerely,

*Margaret Ward*

Margaret Ward  
ISD Superintendent/CEO
