“Preparing Today’s Learner for Tomorrow”

May 14, 2021

Dear Warren Elementary School Families,

Thank you for your patience and understanding as ISD Staff worked closely with public health this week on positive cases of COVID-19 in the Warren and Woodlands communities. We acknowledge the closure of Warren Elementary School on May 13 and 14 has had a significant impact on families and our decision to do so was out of an abundance of caution for students, staff, and families. Today’s letter provides an update on next steps.

All current public health investigations of positive cases of COVID-19 impacting WES have been completed and all close contacts have been identified.

Warren Elementary School will resume in-person learning on Monday, May 17 for all students and staff who are not self-isolating as directed by public health.

If additional positive cases of COVID-19 impacting WES are presented in the coming days, programming may be shifted to remote learning on very short notice. We remain committed to working closely with public health on all investigations and to communicating with families and with staff as quickly and accurately as possible.

Thank you for your ongoing support.

Sincerely,

Margaret Ward
