“Preparing Today’s Learner for Tomorrow”

January 10, 2022

Dear Interlake School Division Families,

The Manitoba Government is making rapid antigen test kits available to students in Kindergarten to Grade 6 in support of a safe return to in-class learning. Interlake School Division has now received our allocation of test kits, so we are reaching out today to share important information with families about availability and distribution.

The Province has allocated test kits to ISD equivalent to **95% of our K-6 student population**. Each kit contains five (5) rapid antigen tests and instructions for appropriate use. Please note, your child’s participation in this testing is voluntary and students are not required to participate in order to return to the classroom.

Test kits were delivered to ISD schools today and will be ready for distribution this week. Families will hear directly from their child’s school by the end of the day on Tuesday, January 11 regarding the distribution of test kits for students in Kindergarten through Grade 6.

As always, we thank you for your patience and understanding.

Sincerely,

Margaret Ward
