

## AP 1065 – F1 Library Materials Challenge Form

The Interlake School Division (ISD) has an established process for reviewing materials which an ISD student or parent/guardian wishes to challenge. Only students and parents/guardians residing in the Interlake School Division may raise a library materials challenge. A separate Library Materials Challenge Form must be filled out for each material being challenged. If the material being challenged has been borrowed, it must be returned before the Library Materials Challenge Form can be accepted. Materials subject to challenge shall not be labelled, reclassified to a new shelving location, restricted, or removed from circulation pending final decision. The school principal will communicate in writing the final decision about the material challenge, with rationale, to the person initiating the materials challenge within 40 school days of the Library Materials Challenge Form being received.
